If applicants register for an entrance exam at a university, they need to participate in a statistical survey of the ministry of education. For technical reasons, you need to submit this data in our UFGonline. Please see page 8 for more information.

Statistics:

According to the Educational Documentation Act (Bildungsdokumentationsgesetz) § 18 paragraph 6 and 7 applicants need to participate in a statistical survey if they register for an entrance exam at a university. Please note that we need to forward the data of the statistical survey **for every study programme separately**. This means, applicants who register for more than one entrance exam, have to submit the statistic survey for each study programme.

Our university is not able to see the statistical data which is sent encrypted to the ministry of education. To guarantee an encrypted data transfer, we are using our campus management system – the UFGonline. Therefore, applicants need a UFGonline account.

- Please fill out the registration form to create a UFGonline account for applicants (you can select “English” in the right corner): **Create UFGonline Account**
- After a few minutes, you will receive an e-mail with an activation link which will allow you to activate your account and set a password (please also check your SPAM folder).
- After activating your account, please click on “Continue” to access your account for the first time. Please click on “Statistical Survey: Entrance Exam” to submit your data.
- On the last page, you can check your data. If these are correct, please click on “Send”.
- Afterwards, you will see a confirmation on our system. Please click on “Continue” to get an overview of all the study programmes for which you have submitted your data. In the first column, you can find **the number of your application for your study programme(s)**. Please enter this number in the field “Application number” in the statistical survey. If you want to sign up for multiple entrance exams, please enter the application number of the right study programme.

If you have any questions, please contact the student support team at stud.support@kuz.ac.at

Statistics: *

If you have completed the statistical survey in the UFGonline for this study programme, please enter the application number into this field.

Please enter the number of your application from the UFGonline into this field.
